Overview

- Actions:
 - May 17th. Erik to send outline for presentation to Knut. Done.
 - Knut to add his presentation outline and send to Erik
 - Comments
 - May 24th. Erik to send presentation to frances@nysnoinvest.no
- Event: Driva, Stavanger
 - Title: "Hjernen og nervesystemet i den nye energiinfrastrukturen"
 - Proposed theme from Nysnø: Fremtidens fullelektrifiserte samfunn med lokal fornybar, ikke-regulerbar strømproduksjon stiller nye krav til forbrukere og strømlleverandører. AI-analyser, automatisert overvåkning og droner gir et smart elnett, men kan teknologien også bidra til smartere forbruk hos sluttkunde? Klarer vi å samle, koble og vise relevante data slik at biologiske og elektroniske beslutningstakere spiller på lag for effektiv energiutnyttelse? eSmart og Disruptive deler sine visjoner for en smartere energiframtid.
 - Time: 28. Mai at 10:05 (meetup 09:50)
 - Language: English
 - Duration: 15min + QnA
 - Outline
 - 7min (Knut)
 - 7min (Erik)
 - Video
 - Erik presentation
 - 5 min QnA
